

Please reconsider your request to abandon, or less stricken the NJ code for the Do-not call list. Our calls have dropped from about 4 per day, to none, do you have any idea, for any hardworking family, how much of a relief such a decrease in calls is??

Personally, I don't care about telemarketing companies, they are spamming my email already, thus no need for them to spam me also in private time.

Thank you for your attention.

Michael Witte
